## CORPORATE PRODUCT DIRECTORY

This directory is a basic reference guide to products manufactured and sold by American Optical Corporation, but it is exclusive of replacement parts and accessories. It is designed to provide prompt, efficient service to customers and prospects when they ask for product information. Now you can refer them directly to the proper division and the most convenient sales office.

### HOW TO USE THIS PRODUCT DIRECTORY

Example: If a prospect asks about MICROSCOPES, first look under the Alphabetical Product Listing, "MICROSCOPES". After the description of MICROSCOPES is a code letter and number combination in parenthesis - - - (IG-100-1) which refers to the Division and product group which markets these products.

Next look in the KEY TO AO DIVISIONS. You will see that "IG-100" refers to the Instrument Group - - Scientific Instrument Division and "IG-100-1" is the Microscope Department. The KEY also shows that the headquarters and sales office for the Microscope Department is located at the main office for the Scientific Instrument Division in Buffalo, New York.

Thus, you can easily locate the product "MICROSCOPES" in the Alphabetical Product Listing and from the code shown in parenthesis after "MICROSCOPES" you can find the headquarters and sales office for this product by referring to the KEY TO AO DIVISIONS.

Use the same system with the code letters and numbers indicated after each product on the Alphabetical Product Listing to find information about any product.
